Jack & Bonne Scott, Proprietors

Silver City is Accessible

Drive through a fantastic panorama of Oak studded foothills into the cool of century old pine and redwoods. Know the joy of the wind whispering through the top of the pines seemingly polishing the stars to an even greater brilliance. Hear the laughter and roar of the creek past your cabin and listen; listen to the soft, quiet sounds you had forgotten.

Silver City gives you and your family a time to rediscover yourself and your wonderful world. Quiet times and bubbly, giggly, happy times; the radiant smile on your first - time - fish - catchers face, the thrill of actually starting a fire and cooking your first meal on a real wood burning stove (don't panic, we also serve meals in the dining room).

Silver City is a semi rustic resort with housekeeping and sleeping cabins, cafe, grocery store, and petroleum products. Excellent fishing is found in the Kaweah River or in any of the over half-dozen lakes near by. Hiking is available on the many Forest Service Trails, and packers are available at Mineral King for day or longer trips.
